Bid Bulletin No. 1

**Fireproofing (Supply and Installation) of the Steel Structure of the
New National Institutes of Health Building,
University of the Philippines Manila**

This Bid Bulletin No. 1 is being issued to clarify and address query raised by the prospective bidder/s through email.

Query	Response/ Clarification
Concern due to one lacking document, the Similar SLCC. In view hereof, may we seek for reconsideration and be included in the upcoming bidding in as much as though we lack of Similar Single Largest Completed Project, we give the assurance that we can aptly deliver the required goods/services being bided. While we have yet to handle a similar project, we have handled other projects of a bigger scale. Therefore, we have no reason to doubt our capability to fulfill the requirements of the project.	The end-user clarified that a similar project is required since the SLCC is part of the eligibility and technical requirements: <i>"Fireproofing Works (with the same material specifications as described/identified in the TOR) for Mid-rise to High rise Steel Structures]"</i> . Section 23.4.2.4 will not apply to this project as this is beyond the Allowable Range of Contract Cost (ARCC) for Small A and Small B contractors.

For guidance and information of all concerned.

MARIA ELIZA RUIZ AGUILA, PhD
Chair, Bids and Awards Committee 2
