 PHIC - Accredited Health Care Provider
 ISO 9001:2008 Certified

4 May 2017.

TERMS OF REFERENCE

Service Provider / Supplier must meet at least the following criteria for preventive maintenance and calibration of hospital biomedical equipment:

1. Must be PHILGEPS member / enrolled.
2. Must be ISO accredited and / or by other accredited government agency like Philippine Accreditation Office, Department of Trade and Industry.
3. Test Equipment shall be calibrated by a certified and accredited calibration company / government agency.
4. Manpower must be technically skilled in biomedical equipment.
5. Protocols must be compliant to quality management system. (ISO Standard)
6. Must have complied the preventive maintenance and calibration per equipment as enumerated in the Scope of Works.
7. Preventive maintenance and calibration checklist must be consistent with ISO standard.
8. Must have at least five years in hospital service in the preventive maintenance and calibration of biomedical equipment.
9. Must possess a reliable company profile and track records. Must submit records of hospital / clients served.
10. The payment for the preventive maintenance and calibration services shall be based on number of units actually serviced by the Service Provider. A corresponding amount shall be deducted from the total cost of the services in case certain units are out of order / malfunctioning or beyond repair. In case equipment is out of order, Service Provider should submit service report and / or quotation for repair as needed on their assessment.
